Redistricting Deep Dive

Allan Parsons

REDISTRICTING OVERVIEW

- **Happens** every 10 years, and coincides with the release of US Census Data
- **Ensures** that communities are reflective and representative of the most recent census data.
- **Equal** Districts of 260k people / district

REDISTRICTING GOALS

- Votes are not diluted
- Fairness and transparency to ensure best possible representation of a district
- Districts redrawn for their benefit, not for the politicians or incumbents
- Communities of likeness remain in tact
- Constituents' voices are heard
- Geographical closeness making districts compact is heavily preferred

WE RAN A SURVEY

(but it was statistically insignificant 😕)

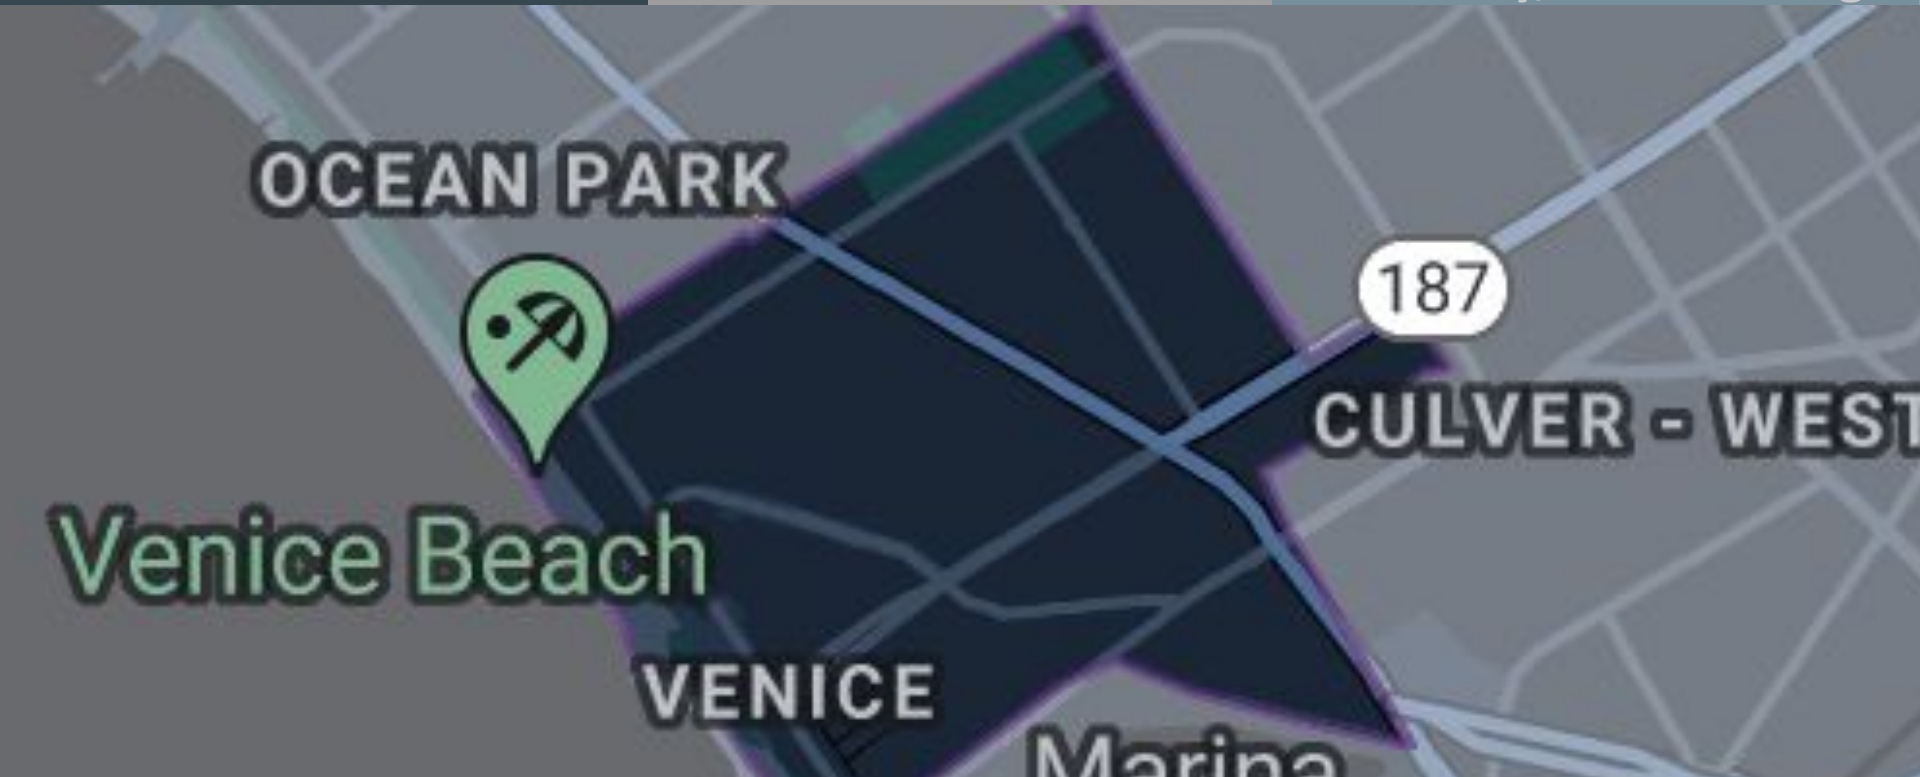
Most people stay in Venice all Week

Most Walk / Drive / Use Public Transit Daily

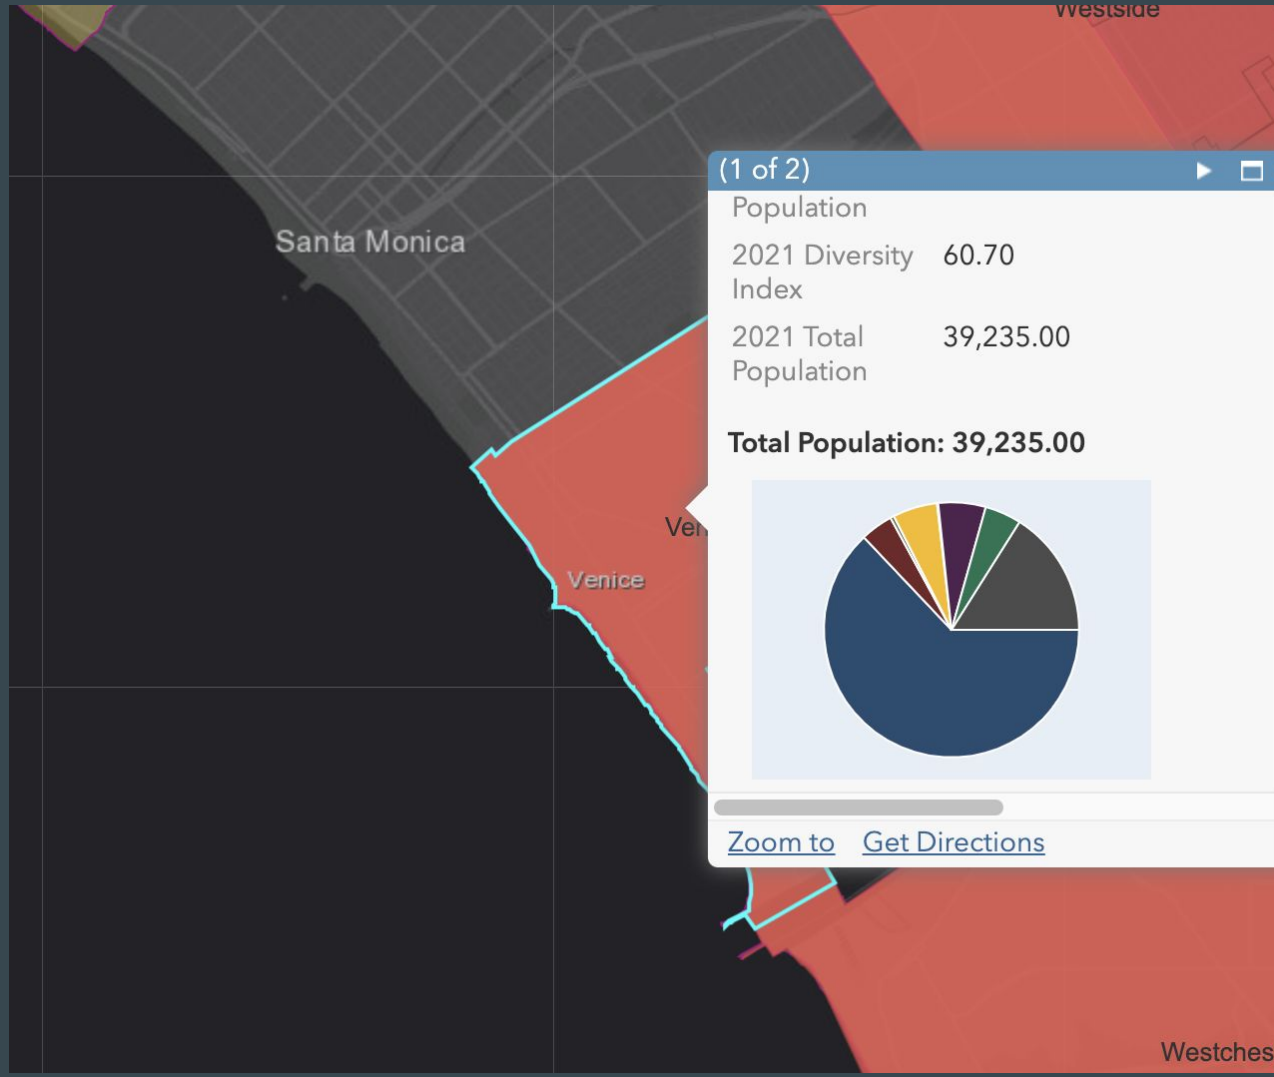
People are concerned about the Environment, Transportation, Diversity, and Housing



Population

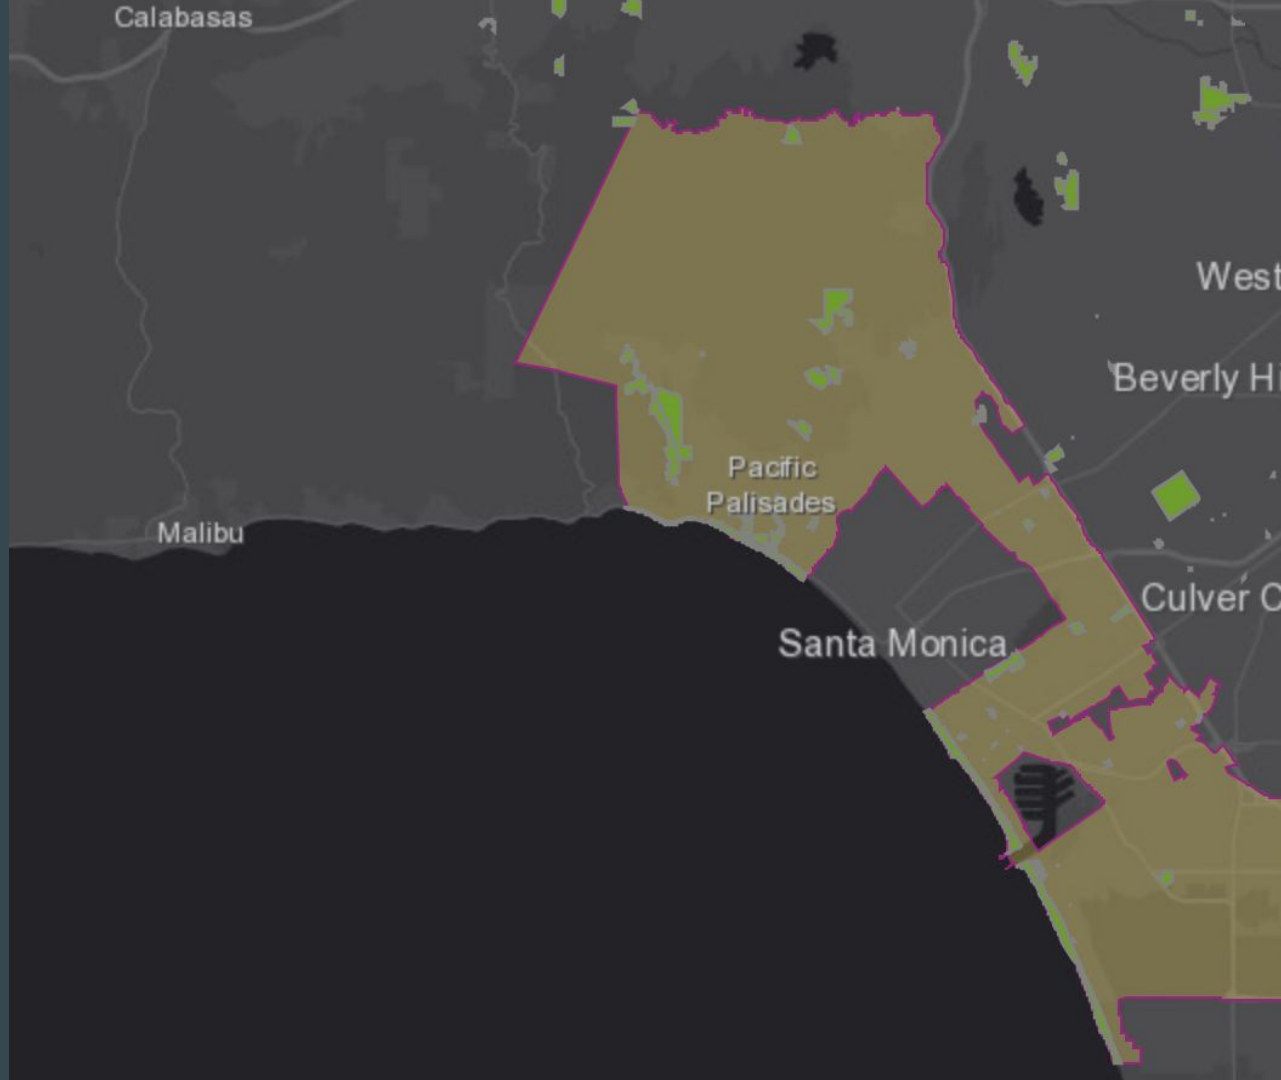
- Population has risen from 29,522 (2010) to 39,235 (2021).
- Diversity index of 60.

62.93% White
4.13% Black
0.47% American Indian
5.65% Asian
0.15% Pacific Islander
6.01% Other
4.64% 2+ Races
16.03% Hispanic



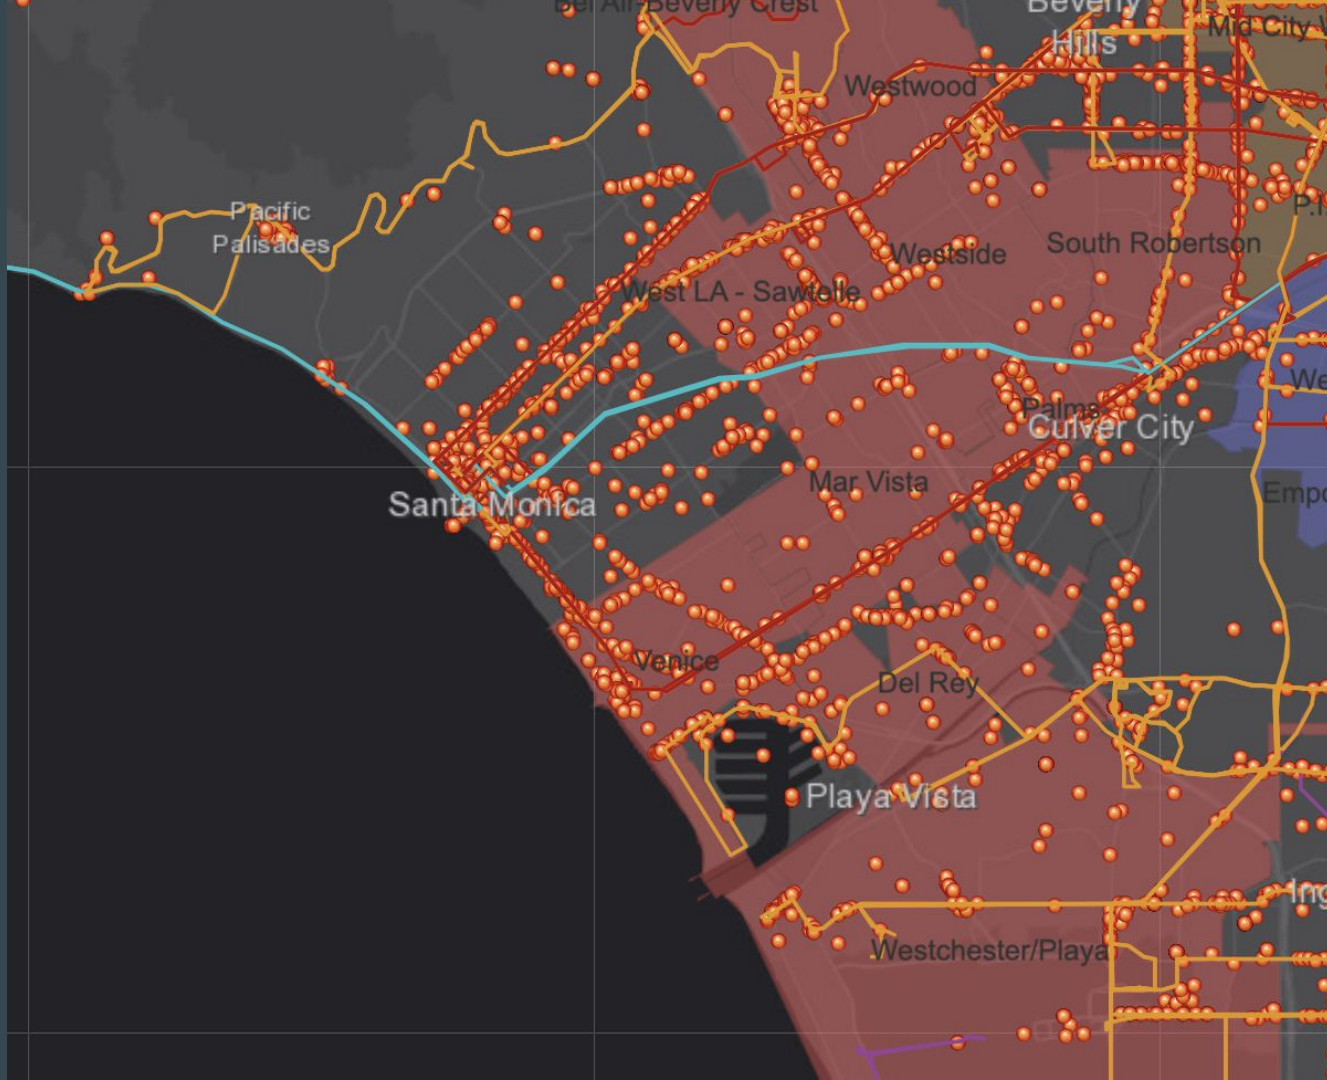
Environment

Venice shares the coastline with adjacent CD11 neighborhoods. Between the coast, the Ballona Wetlands, and the Santa Monica mountains, we have several natural habitats.



Transit

Mass transit connects multiple CD11 neighborhoods to Venice through major thoroughfare streets. It also connects a vibrate, diverse restaurant community.



Housing

Venice has only added approximately 1,300 net new housing units from 2010 to 2021, despite a population growth of approximately 11,000 people. But we have a High concentration of affordable housing projects
