15 Venice Arbor Committee Native Tree and Plant Species Motion

Description: **Committee:** Venice Arbor Committee **On:** 2022-06-16 **Vote:** 05/0/01

Los Angeles faces a biodiversity crisis wherein over 90% of local butterflies, songbirds, and other pollinators have disappeared in the last century due to the replacement of local flora with non-native plant and tree species. Los Angeles is within a floristic region that is noted as a Biodiversity Hotspot: over the last several years the City of Los Angeles has invested in a Biodiversity Initiative and has committed to no loss of biodiversity. The LA City Council has instructed every department to incorporate biodiversity into their practices. The current proportion of native trees in the city's public right-of-way is 3% and if every empty parkway tree well (currently 165,191) were filled with native species, that would bring the overall native tree cover from 3% to 29%. Native plants and trees can thrive in our urban environment and provide all the benefits non-native trees offer in terms of canopy shade to offset the heat island effect, beauty, and shade comfort for humans, while providing a path to sustainability for biodiversity, water and energy savings, and elimination of soil amendment runoff pollution.

Venice Arbor Committee requests that the Venice Neighborhood Council pass the following motion: Whereas Los Angeles faces a biodiversity crisis wherein over 90% of local butterflies, songbirds, and other pollinators have disappeared in the last century due to the replacement of local flora with non-native plant and tree species; Whereas native landscaping plants and trees can thrive in our urban environment and provide all the benefits non-native trees can offer in terms of canopy shade to offset the heat island effect, beauty, and shade comfort for humans, while providing the only path to sustainability for biodiversity, water and energy savings, and elimination of soil amendment runoff pollution,

Attachments: untitled:<https://www.venicenc.org/assets/documents/5/request62a796416bed4.docx>

MOTION:

The Venice Neighborhood Council appeals to the City of Los Angeles, all applicable government agencies, public-private partnerships, and private parties planting in public space to discontinue the practice of planting non-native landscaping plants and trees except in situations where plants and trees are designed to produce food or provide a designated recreational playing field, and henceforth these same parties only plant 100% California native landscaping plants and trees within Los Angeles City, and specifically within the stakeholder area of the Venice Neighborhood Council district; and the VNC further appeals to the City of Los Angeles to request the County of Los Angeles and its agencies to establish the same or similar policy.

Description:

Committee: Discussion Forum Committee **On:** 2022-05-26 **Vote:** 4-0
Unanimous

The Discussion Forum Committee seeks VNC Board support for implementation of its Venice Parks Initiative as described in the attached motion.

Whereas, the Discussion Forum Committee of the VNC exists to “Provide a monthly forum for discussion of long-term matters affecting the Venice Community within the context of the VNC Vision Goals”; and Whereas, the Discussion Forum Committee has resolved to turn its efforts to the “Focus on Children” Vision Goal; and Whereas, the “Focus on Children” Vision Goal establishes that the VNC will “Consider strategies that promote & expand opportunities for children to experience direct meaningful involvement in all aspects of the social and economic and cultural activities of the Venice Community”; and Whereas, well-designed and maintained playgrounds serve as a neighborhood hub where children and neighbors can meet and “community” is formed; and Whereas, there are very limited playground spaces for young children and parents in the Venice area; It is therefore requested the VNC Board adopt the following Motion & its Whereas clauses:

- b. Advocate with stakeholders and local authorities for additional or improved amenities where they are lacking (bathrooms, drinking fountains, benches, trees and shade structures, crosswalks, etc.);

c. Investigate options for the creation of new parks & family recreation opportunities, whether temporary or permanent, at locations public or private, of any size.

d. Explore options for partnering with Venice schools, non-profits, parenting groups, and media to publicize our current, improved and any new park/playground resources to local families and visitors.
