

PETITION TO ESTABLISH CITIZEN TASK FORCE TO RECOMMEND THE CITY USE ITS VACANT LAX PARCELS FOR INTERIM SHELTER FOR HOMELESS, RV AND VEHICLE DWELLERS

The undersigned live, work or own property at their addresses below.

WHEREAS:

1. The Los Angeles Housing and Services Authority and Rand Corporation recently reported there is a 45% increase in homelessness in West Los Angeles and there are 523 homeless in Venice.

2. RVs, buses and other vehicles containing homeless people have recently appeared throughout Venice, including on Main, Rose, Venice Blvd and around the Lincoln Place Apartments.

3. Councilwoman Park has repeatedly admitted in public forums that there are no available beds, rooms or space in CD 11 for homeless persons.

4. Due to *Martin v. Boise* 444 F.3d. 1118 (9th Cir.) and other federal court decisions the City cannot enforce its anti camping ordinances unless it has places for the homeless in the City .

5. Los Angeles World Airports (LAWA) recently reported to the City Administrative Officer that there are many City owned vacant parcels within LAX, including ones at the corners of La Cienega and Century and 111TH and Aviation which could be used for homeless shelter and vehicle parking.

6. The City has ample resources to make use of these parcels. There is \$1 billion in the current City Budget for homeless services. The Governor has offered 500 tiny homes to Los Angeles for its homeless. The Federal Government recently selected Los Angeles to participate in a 2 year federal program targeting homelessness.

7. Despite the above, Councilwoman Park's response to a recent document request served upon her under the California Public Records Act (Gov't C. sec. 6250) establishes she is taking no steps to cause LAWA and the City to establish safe camping and parking facilities on the LAX Parcels.

8. Councilwoman Park has established a Citizen Task Force to facilitate the development of recreation facilities in the LAX Northside Project but has failed to establish a similar task force to facilitate the development of facilities for the homeless on the vacant LAX Parcels

NOW THEREFORE: The Venice Neighborhood Council requests Councilwoman Park to forthwith establish a Citizen Task Force with representatives from the Venice, Del Rey and Westchester Neighborhood Councils and the City to:

1. Study establishing interim shelter, safe camping and safe parking facilities upon the vacant parcels of land the City owns at LAX

2. Evaluate all factors regarding the establishment and operation of such facilities, including but not limited to: the impact of airplane noise upon the residents of the facilities, the impact the facilities will have upon Westchester's residents and businesses, any FAA requirements applicable to the facilities; the availability of shopping and social services to the residents of the facilities, the expense and time involved to establish and operate the facilities.

3. Make recommendations to the City based upon the study and evaluation of the Citizen Task Force.

**PETITION TO ESTABLISH CITIZEN TASK FORCE TO RECOMMEND THE CITY
USE ITS VACANT LAX PARCELS FOR INTERIM SHELTER FOR HOMELESS,
RV AND VEHICLE DWELLERS**

The undersigned live, work or own property at their addresses below

WHEREAS:

1. The Los Angeles Housing and Services Authority and Rand Corporation recently reported there is a 45% increase in homelessness in West Los Angeles and there are 523 homeless in Venice.
2. RVs, buses and other vehicles containing homeless people have recently appeared throughout Venice, including on Main, Rose, Venice Blvd and around the Lincoln Place Apartments.
3. Councilwoman Park has repeatedly admitted in public forums that there are no available beds, rooms or space in CD II for homeless persons.
4. Due to *Martin v. Boise* 444 F.3d, 1118 (9th Cir.) and other federal court decisions the City cannot enforce its anti camping ordinances unless it has places for the homeless in the City.
5. Los Angeles World Airports (LAWA) recently reported to the City Administrative Officer that there are many City owned vacant parcels within LAX, including ones at the corners of La Cienega and Century and 111TH and Aviation which could be used for homeless shelter and vehicle parking.
6. The City has ample resources to make use of these parcels. There is \$1 billion in the current City Budget for homeless services. The Governor has offered 500 tiny homes to Los Angeles for its homeless. The Federal Government recently selected Los Angeles to participate in a 2 year federal program targeting homelessness.
7. Despite the above, Councilwoman Park's response to a recent document request served upon her under the California Public Records Act (Gov't Code, sec. 6250) establishes she is taking no steps to cause LAWA and the City to establish safe camping and parking facilities on the LAX Parcels.
8. Councilwoman Park has established a Citizen Task Force to facilitate the development of recreation facilities in the LAX Northside Project but has failed to establish a similar task force to facilitate the development of facilities for the homeless on the vacant LAX Parcels

NOW THEREFORE: The Venice Neighborhood Council requests Councilwoman Park to forthwith establish a Citizen Task Force with representatives from the Venice, Del Rey and Westchester Neighborhood Councils and the City to:

1. Study establishing interim shelter, safe camping and safe parking facilities upon the vacant parcels of land the City owns at LAX
2. Evaluate all factors regarding the establishment and operation of such facilities, including but not limited to: the impact of airplane noise upon the residents of the facilities, the impact the facilities will have upon Westchester's residents and businesses, any FAA requirements applicable to the facilities; the availability of shopping and social services to the residents of the facilities, the expense and time involved to establish and operate the facilities.
3. Make recommendations to the City based upon the study and evaluation of the Citizen Task Force.
