

MOTION- submitted by Helen Fallon

LUPC Chair Michael Jensen was appointed to that committee to represent the VNC. City Planers stated at the November VNC Board Meeting that the draft and revisions to the draft have relied on input from this advisory group. To date, the Board has not received any reports from Mr. Jensen regarding his input to the plan or on the plan details.

The VNC Board directs Mr. Jensen to provide the Board with a written report regarding the three meetings he has attended as the VNC representative. The report will include details on what is being proposed in the Draft Community Plan/Coastal Plan, including proposed changes to existing ordinances, zoning, parking requirements etc. along with a summary of the input he has given at these meetings on behalf of Venice Stakeholders regarding these proposed changes.
