- A Creation Of Feed-In-Tariff Program** (Erin Sullivan Ward on behalf of the Environmental Committee erin.sullivanward@venicenc.org)
FIT (Feed-In-Tariff) programs seek to encourage renewable energy development within the Los Angeles Basin by purchasing excess power developed by consumers from roof-top solar projects (this will also help meet the 33% Renewable Portfolio Standard mandate by 2020).

MOTION: The Venice Neighborhood Council favors the creation of the Feed-In-Tariff program, as authorized by the LA City Council and DWP Commission, because it:

- 1) Provides clean, local solar energy, thus reducing our reliance on polluting, coal-fired power plants and costly long distance transmission lines.
- 2) Generates local, well paying jobs in the Green Energy sector.
- 3) Encourages private investment and provides \$300 million in federal tax credits for local businesses.
- 4) Will, over time, lead to a decrease in the cost of "going solar" thus increasing its prevalence and lessening the need for incentives.

The VNC urges LADWP and the City to maintain FiT energy buy-back prices at a level sufficient to encourage participation in the program, to be mindful of market prices and also, to expand FIT from its current 150 megawatts to 1200 megawatts.

B Support for Santa Monica Airport Becoming a Grand Park, (Laura Silagi, Abigail Myers)

MOTION: *Whereas* the Santa Monica Airport (SMO) is a health hazard to its surrounding communities and the Venice Neighborhood Council (VNC) supports the mitigation of noise, emission and negative environmental impacts generated by SMO,

Whereas all aircraft departing Santa Monica Airport fly over Venice and the VNC supports the end of this flight pattern practice,

Whereas propeller planes fly over parks, schools and residences causing noise and lead pollution and the VNC supports safe and healthy schools and neighborhoods,

Whereas the Santa Monica Airport poses a continuing danger from accidents, and the VNC supports a safe environment free of the danger of aircraft accidents,

Whereas our City Council representative, Mike Bonin and our State Assembly representative Ted Lieu have called for the airport to be closed.

THEREFORE BE IT RESOLVED that the Venice Neighborhood Council supports the green concept of turning the airport property into a grand park to serve all of the entire area, a use that would not increase traffic and would be environmentally healthful to all and would provide badly needed open space in an area that has very little.

10 Winter Shelter Storage Program Location (8:05pm -- 60 minutes) (Tom Elliott thomas.elliott@venicenc.org)

There will be a presentation and question-and-answer session with CD11 personnel regarding the Emergency Winter Shelter Storage Program and the City-conducted clean-ups (Warn, Bag, Tag and Store Program):

MOTION: *Whereas* CD11 City Councilperson Mike Bonin sent a [letter](#) to Venice Neighborhood Council dated December 11, 2013, stating (in part), "I am going to authorize a voluntary storage program for participants in the emergency winter shelter program," and "I have asked the Department of Recreation and Parks to allow VCHC [Venice Community Housing Corporation] to use an existing storage container at Venice Beach, next to the paddle tennis courts", and "I will gladly entertain an alternative location -- if the Venice Neighborhood Council, after public process, recommends one",
and

Whereas the following locations for the storage facility have been suggested by CD11 and members of the Venice Neighborhood Council (listed in no particular order):

- Just west of the paddle-tennis courts in Venice Beach Park. This is the 'default' location – if no other location is recommended by the VNC, the storage container program will operate from there.
- The City Parking Lot between North and South Venice next to Pacific. This is a large lot and the suggested location would be near the lot's canal bridge rather than adjacent to one of the streets.
- The Metro Bus Yard at Main between Sunset and Thornton Place. This is a large, walled area and may have room for the storage location within the walled yard.

and

Venice Neighborhood Council

PO Box 550, Venice, CA 90294 / www.VeniceNC.org
Email: info@VeniceNC.org Phone: 310-421-8627

Whereas VNC Board Members and the Public were asked to submit additional alternative locations at its regularly scheduled Board Meeting held December 17th, 2013 according to the following criteria:

- The suggested location must be large enough to accommodate an 8ft x 20ft shipping container and room for individuals to queue up to use the facility.
- The location should be large and convenient enough to accommodate pickup and drop off of individuals being bused to the Emergency Winter Shelter located in West LA (CD11 feels the success of the program requires the storage location be located near the bus pickup / drop off location - therefore, moving the storage location may mean the pickup / drop off location would also move)
- The location should be located near Venice Beach (where most of the people to be bussed and need access to the storage facility are located)
- the location should be a city facility or one where any rental charges will be minimal because no funds for renting a location have been identified.

Therefore be it Resolved, the VNC suggests the following locations for the Winter Shelter Voluntary Storage Program in ranked order for further evaluation and selection by CD11.

1. _____
2. _____
3. _____
