- 11B Removal of Venice Blvd. Arts District Designation from proposed Venice Community Plan (10 minutes)**
MOTION: Whereas a major new Venice Blvd “Arts District” initiative involving both Venice and Mar Vista was unveiled at the recent July 10th Venice Community Plan and June 21st Mar Vista Community Plan update workshops at the tail end of the “share” period and had not previously been made available to the respective communities for consideration or comment; and Whereas neither the Venice Neighborhood Council nor the Mar Vista Community Council was included in the proposed new “Arts District “ designation, **in violation of the City Charter requirement for Neighborhood Councils to have the opportunity to provide input to City decisions impacting their neighborhoods.**
Therefore, the Venice Neighborhood Council recommends that the “Arts District” designation for Venice Blvd be removed from any draft of the respective Community plans, and that the “Arts District” (be brought to the respective communities via the Neighborhood Council process for proper consideration.

- 11Ci CIS in Opposition to Council File 14-1349-SI re. Enhanced Infrastructure Finance District (20 minutes)**
MOTION: Whereas on July 3, 2019, the Los Angeles City Council considered an Enhanced Infrastructure Finance District (EIFD) for the geographic region of Venice <https://cityclerk.lacity.org/lacityclerkconnect/index.cfm?fa=ccfi.viewrecord&cfnumber=14-1349-S1>; and Whereas the community of Venice as represented by the Venice Neighborhood Council (VNC) is concerned that the decision making body described within the proposed EIFD known as a Public Financing Authority (PFA) will be selected by City Officials and may not represent the constituents of the Venice Community; and

Venice Neighborhood Council

PO Box 550, Venice, CA 90294 / www.VeniceNC.org
Email: info@VeniceNC.org / Phone or Fax: 310.606.2015

Whereas Venice is a unique Coastal Zone community that falls under the regulations of the California Coastal Act and has special development considerations that are not required in the non-coastal communities of Los Angeles; and

Whereas public outreach on the EIFD policy, which impacts our community, has been inadequate and minimal information on the details, impacts, or implementation has been provided

Therefore the Venice Neighborhood Council recommends that a Community Impact Statement (CIS) in opposition to the EIFD be submitted and that should an EIFD proceed it shall be restricted to not fund projects that will alter the original land use designations of the 1904 Abbott Kinney Company development projects.

Recommended by LUPC 6-0-0 on 8/8/19

11Cii CIS in Opposition to Council File 14-1349-S1 (james.murez@venicenc.org)

MOTION: Whereas the City of Los Angeles is considering an ENHANCED INFRASTRUCTURE FINANCE DISTRICT ("EIFD") for the geographic region of Venice

http://clkrep.lacity.org/onlinedocs/2014/14-1349-S1_misc_02-09-2017.pdf); and

Whereas the community of Venice as represented by the Venice Neighborhood Council is concerned that the decision making body described within the proposed EIFD known as "Public Financing Authority" will be a majority of City Council Members who do not represent the constituents of the Venice community; and

Whereas Venice is a unique Coastal Zone community that besides the LAMC falls under the regulations of the California Coastal Commission (CCC), and has special development considerations that are not required in any other community of Los Angeles City; and

Whereas Venice has a CCC Certified Land Use Plan that described community character, scale and mass and how it relates to the historic nature and preservation of its prior geographic designation as a City in California, "Venice of America"; and

Whereas in 1925 the City of Venice of America was incorporated into the City of Los Angeles along with the requirement for the City of Los Angeles to maintain all Venice of America holdings which includes all public right-of-ways, public streets, alleys, parking lots, walk streets, waterways, park lands and other open spaces including the beaches; and

Whereas the streets of Venice have not been maintained and does not comply in many cases to current City of Los Angeles standards nor to State or Federal public access standard, railroad tracks in our streets that were abandoned in the 1950's still remain, the street surfaces are cluttered with temporary pothole patches, sidewalks that do not provide ADA compliance, landscaping along our streets is non existent or dead weeds, street trees go unpruned and in some cases when a tree is killed within the right-of-way the City does not replace them; and

Whereas many properties in Venice were constructed at a time when public transportation was the primary service to the region and a local circulating miniature train and trolley services moved people into and around the community, and many most properties in Venice do not have onsite automobile parking. In the 1970's the City of Los Angeles started requiring all projects to provide parking and properties prior to this new law would be credited or grandfathered with phantom stalls. But the demand for parking as more and more people live and visit Venice has caused a tremendous need for additional parking.

Therefore, the VNC recommends the EIFD shall fund only projects that will improve the lack of off street parking, maintenance of public right-of-ways including landscape areas, or beautify open spaces

including enhancing public services in the Venice Beach recreation areas. All such funds shall be used only for projects that comply with the current Venice Local Land Use Plan (CCC certified 2001). The VNC shall appoint the two public members to the EIFD. *Recommended by PTC 4/0/0 on 8/5/19*

13B Commercial Corridor and Spot Zoning Realignment (25 minutes) (ira.koslow@venicenc.org)

MOTION: Whereas commercial corridors in Venice have over many decades been subject to spot zoning and/or otherwise have been inadvertently rezoned without outreach to the property owners or neighboring residents; and

Whereas the Venice Land Use Plan Policy I. B. 2. states: The design of mixed-use development is intended to help mitigate the impact of the traffic generated by the development on coastal access roads and reduce parking demand by reducing the need for automobile use by residents and encouraging pedestrian activity; and

Whereas, the City Planning Dept and Coastal Commission are in the process of updating the LCP and Venice Community Plan

Therefore the VNC recommends to the City Planning Dept and the Coastal Commission that properties, per the list below along commercial corridors in Venice, be rezoned to Commercial Use as part of the LCP and Community Plan update in order to: (i) create consistency with the adjacent and neighboring properties; (ii) to remedy the past spot zoning of certain commercial corridors of Venice; and (iii) that the rezoned properties be in compliance with all land use requirements set forth in the applicable Los Angeles zoning code, including, but not limited to, any uses which may require a conditional use permit.
