PROJECT CONSTRUCTION

RAP Staff has determined that sufficient funding has been identified and construction for the proposed Project is anticipated to begin in Summer 2022.

TREES AND SHADE

This proposed Project will have no impact on the existing trees and shade at Venice Beach.

ENVIRONMENTAL IMPACT

The proposed Project consists of replacement of existing structures where the new structure will be located on the same site as the structure replaced and have substantially the same purpose and capacity.

This site is within a methane zone and the coastal zone, but the nature of the project is such that it does not impact on a recognized environmental resource of hazardous or critical concern, so there is no reasonable possibility that the project will have a significant effect due to its location or unusual circumstances. No other known projects would involve cumulatively significant impacts, and no future projects would result from the proposed project. As of March 15, 2022, the State Department of Toxic Substances Control (DTSC) (Envirostor at www.envirostor.dtsc.ca.gov) has not listed the Project site or any contaminated sites near the Project area (within 500 feet). According to the Caltrans Scenic Highway Map there is no scenic highway located within the vicinity of the project or within the project site. Furthermore, the project is not located in proximity of a known historical resources and will not cause a substantial adverse change in the significance of a historical resource.

Based on this information, RAP staff recommends that the Board determines that the Project is categorically exempt from the provisions of the California Environmental Quality Act (CEQA) pursuant to Article III, Section 1, Class 2 of City CEQA Guidelines and Article 19, Section 15302 of California CEQA Guidelines. RAP Staff will file a NOE with the Los Angeles County Clerk upon the Board's approval.

FISCAL IMPACT

The approval of this commitment of Park Fees for this Project will have no fiscal impact on RAP's General Fund. The estimated costs for the design, development, and construction of the proposed park improvements are anticipated to be funded by Park Fees or funding sources other than RAP's General fund. The maintenance of the proposed park improvements can be performed by current staff with no overall impact to existing maintenance service at this facility.
