Mehrnoosh's Aug 25, 2022 Email

HELLO Joe and Paul,

I had the pleasure of meeting with John yesterday to look at possible options for Triangle Park.
Like to share with the community

Here is 2 of the options and may be option one is better. Thereafter it will be further developed.

Thanks, Let me know.

Also, it should be great to include the existing dog park in the list as the new community center as well....Have drawings.

Joe and Paul - Yesterday, I met with Mehrnoosh to go over her initial ideas for Triangle Park. She will present a couple of ideas at today's meeting. Unfortunately, I have a work meeting at the same time as our committee's meeting.

I would ask you to carefully consider the design ideas. Mehrnoosh comes up with beautiful and wonderful ideas that are completely functional, but we need to balance beauty and functionality with...do we stand a chance of getting this design approved? The designs Mehrnoosh and I talked about do accomplish our goals and a pretty minimalistic fashion, but I do not know if it is simple enough to stand a chance of being approved. There is no use in having a great idea that is dead in the water from Day 1.

As we settle on a potential design we need to be:

1. Identifying the process by which we can present a park improvement idea and hopefully get it approved. Which are the governmental agencies we will need to go to and who are the leaders we need to be talking with?
2. Start to build a coalition of community leaders and organizations which are will to get behind this initiative. When we go to LA City leaders, we want to be able to say, our voice represents this board coalition, which consists of...

These are the thoughts I would speak of if I were there.

John
