

Proposal for Bike Lane Updates

Washington Blvd - West of Oxford

[SIGN OUR PETITION](#)

Issues with current configuration

Unenforced RV Parking = **Safety (and Fire) Hazard**

Unprotected bike lane = **Safety Hazard**

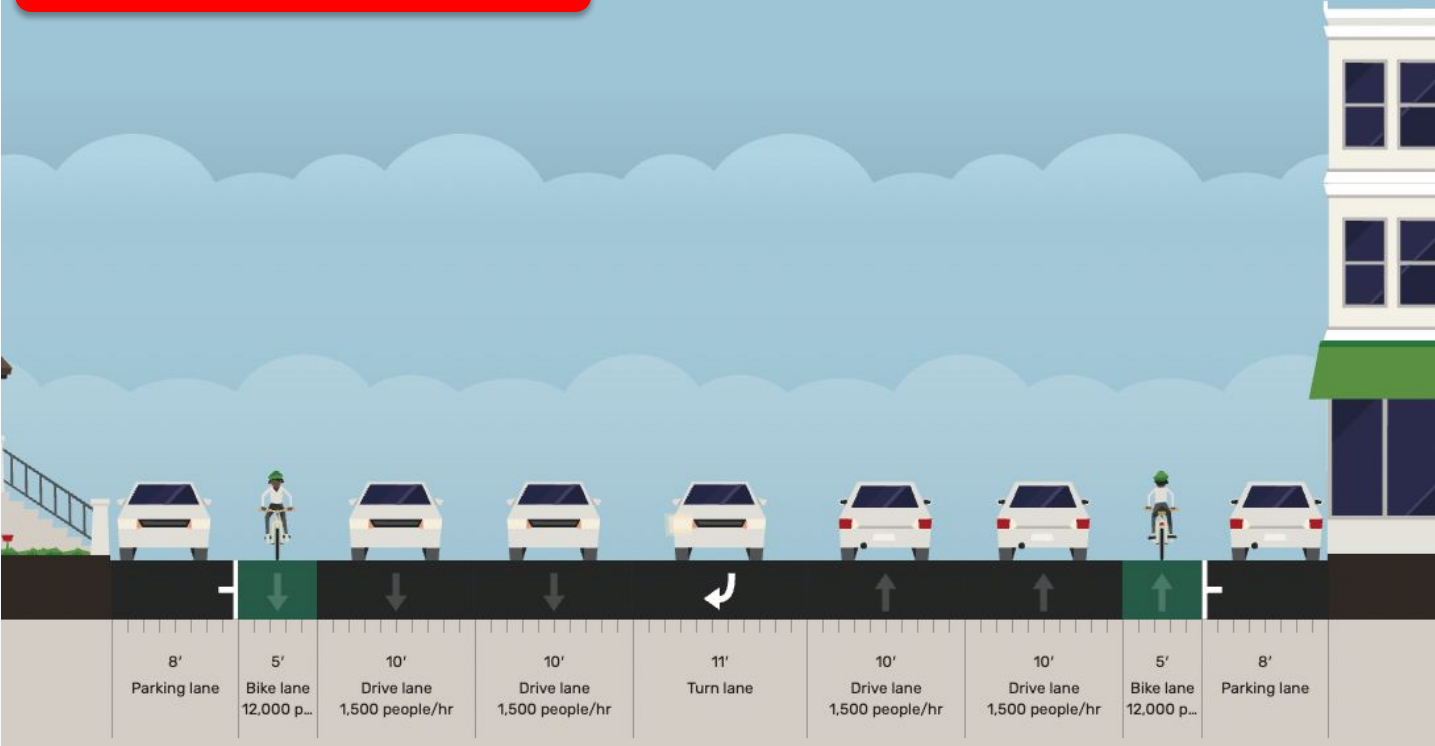

Excessive Vehicle Speeding = **Safety Hazard**

... And the Neighbors agree

- **Over 50 signatures** on our petition in support of this project from residents on/around this stretch of Washington Blvd + adjacent communities
 - Oxford Triangle residents already working with Traci Park's office on solutions east, towards Lincoln
-

Current Configuration - Washington Blvd, West of Oxford

CURRENT STATE

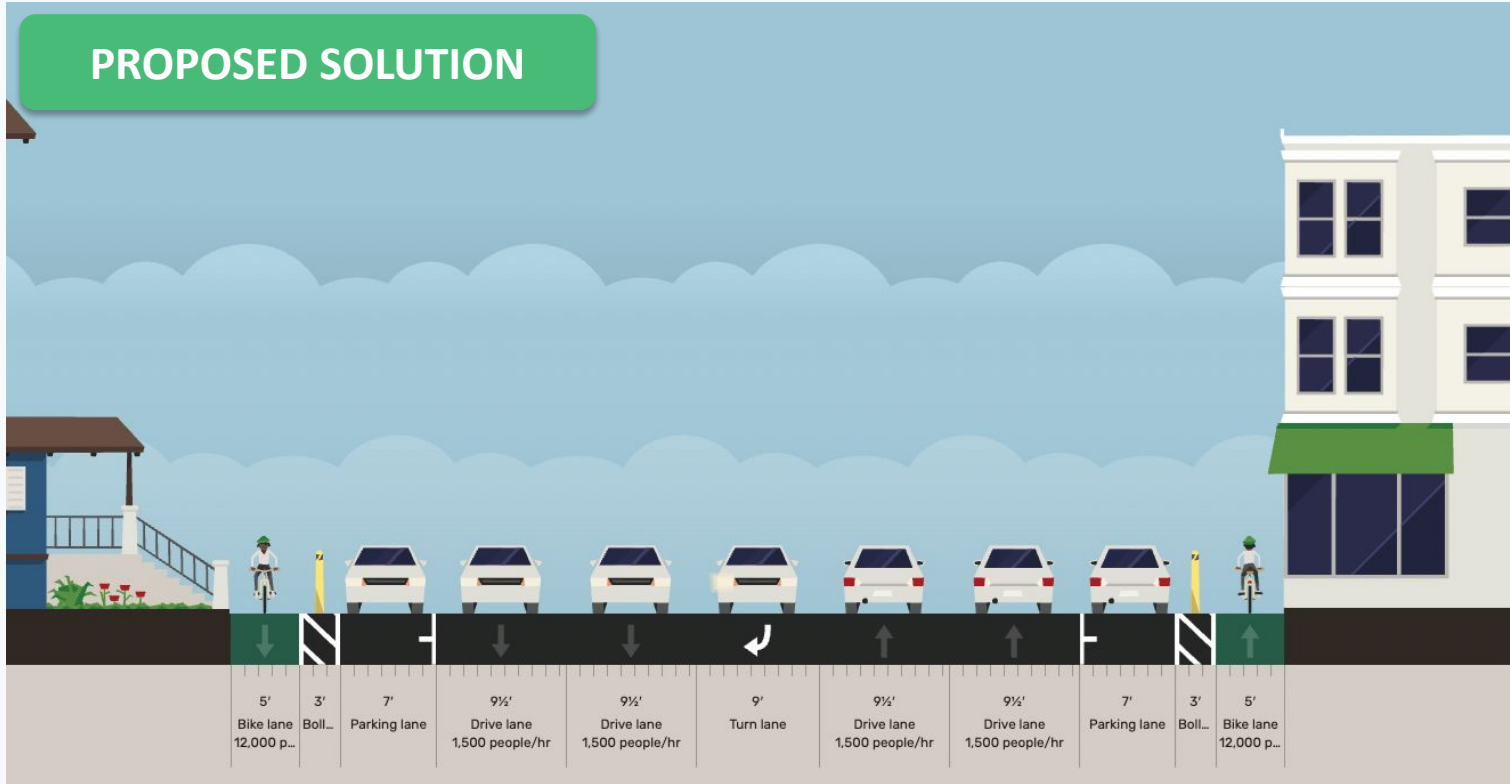

Proposed Changes

1. Flip the existing bike & parking lanes, moving the bike lane adjacent to the curb
2. Add 3ft buffer + bollards to further increase bike lane safety
3. Slightly narrow drive lanes, within DOT limits, to reduce speeding and allow for required space with no tradeoffs

**Image is a mockup and not a final rendering or approved design*

Proposed Configuration - Washington Blvd, West of Oxford

Accessibility Concerns

To ensure this improvement supports *all* residents and visitors, we support adding handicap spots w/out bollards along this stretch of Washington at key intersections such as...

- Oxford & Washington Blvd
- Villa Marina & Washington Blvd
- Dell Ave. & Washington Blvd

**Example of this at the corner of San Vicente Blvd & S Cochran Ave.*

Benefits of proposed configuration

- Deters illegal RV parking & increases enforcement
 - Protected bike lane - Bollards + Parking Lane
 - Improved safety for community & visitors
 - Potential to reduce vehicle speed on Washington
 - NO TRADEOFFS - All parking & drive lanes remain
-

How can you help?

We are already engaged with Councilwoman Traci Park's office and they are looking for community support to help prioritize this initiative

A letter of support from the VNC would go a long way in communicating this support, helping to fast-track this initiative & improve safety in the community
