

Many issues regarding the Venice Beach Washington Square World Cup Final Closing Block Party were brought to the LUPC's attention, including lack of clarity regarding approval of the event; "deafening noise" from the event; lack of security for the surrounding neighborhood, fire safety concerns due to narrow and small size of space in conjunction with a "bursting at the seams" crowd, poor sanitation, and lack of community outreach.

Therefore, the Venice Neighborhood Council (VNC) requests that 1) in the future, any permits for large events such as this be presented to the VNC for review and community input prior to City approval, both to inform the community of the event and to obtain community input, 2) the City/CD-11 investigate the issues raised herein regarding the Venice Beach Washington Square World Cup Final Closing Block Party, determine whether the permit conditions and requirements were adequate, and determine whether the event complied with those permit requirements, and 3) this event be included in the City Council review of the planning and execution of the FIFA World Cup public watch parties and fan festivals requested by Monica Rodriguez on August 4th in [Council File 26-1055](#).
