Replacement of Selena Inouye as WRAC Transportation Committee Representative

While not required, the below sets forth the authority and rationale for the removal of Selena Inoue as the WRAC Transportation Committee representative and her replacement with Richard Stanger.

Authority:

This matter is governed by Art. VI §2(A) of the bylaws, and comports with VNC precedent, specifically the appointments made on August 15th, 2023 by then President Brian Averill of Nico Ruderman and Brian Ulf to WRAC and Helen Fallon to Budget Advocates. Those appointments, like this one were agendized and announced but were not subject to a board vote (see VNC Agenda of 8/15/23 and minutes thereof)

Rationale:

In December of 2025, under President Brian Averill, the Board voted to hold a town hall concerning RVs on the streets of Venice. For nearly a year, the committee formed in order to hold that Town Hall has failed to deliver, postponing it on what is now four separate occasions. Selena Inoye was the “lead” in that effort.

More specifically, Ms. Inouye’s conduct during the recent attempts to hold the RV Town Hall on November 13th, including her failure to respond in a timely fashion to e-mails, and refusal to modify an arbitrarily imposed deadline in order to notify panelists, contributed significantly to the failure of the VNC to hold the RV Town Hall.

This conduct, along with a persistent absence of written or oral reports to the President and written reports to the Board throughout the current President’s term, has undermined trust and confidence in Ms. Inouye’s ability to effectively fulfill the responsibilities of the position.
