Pursuant to LAMC Section 16.05, Site Plan Review for a Project which creates or results in an increase of 50 or more dwelling units.

MOTION: The VNC Board recommends denial of the project as presented due to the following:

1. Failure to Comply with General Plan, Coastal Plan, LAMC and Venice Specific Plan
The project does not comply with the General Plan, Specific Plan, or Coastal Plan. The VNC has already submitted a CIS recommending denial of the General Plan Amendment and rezoning request for the Specific Plan amendment, all which would be required for this project. Applicant has not demonstrated hardships warranting the ZAA and waiver requests. Waivers include but are not limited to in lieu fees for use of Linnie Park.

2. Sea Level Rise

Housing a vulnerable population of residents in a known high risk flood zone due to sea level rise is extremely irresponsible and dangerous, analogous to building public housing in the lowest parts of New Orleans when a future hurricane storm surge is obviously inevitable. Moreover, this project relies heavily if not exclusively on public funding, meaning the taxpayer is underwriting the developer's unsuitable site selection and resulting flood risk.

3. Mass Scale and Character

The mass scale and character does not conform to the metrics in the Specific Plan.

4. Abuse of Taxpayer Funding

The estimated cost of this project is staggeringly over \$100 million to create 136 low income units-a price tag of nearly \$750,000 per unit. At this rate, it would cost our city over \$22 trillion to house 30,000 people. When taxpayers authorized various tax increases and bond measures to solve the homeless crisis, this was surely not what they had in mind. Taxpayers deserve responsible spending of finite resources to alleviate this crisis.

Next the underlying land for this project (currently owned by the city,) is proposed to be donated to the developers, depriving Venice from large swaths of open space and an extremely high value asset, sale of which could directly benefit the community.

In sum, the project exemplifies a gross waste of taxpayer dollars that will not alleviate the immediate needs of relief for our unhoused. Per Judge David O Carter's recent ruling in federal court, these funds could and should be used for immediate shelter of unhoused residents. The humanitarian crisis on the streets of Venice is neither alleviated nor changed
