City Hearing Not Yet Scheduled

Project Description: Expansion of the facility's 2nd floor area, and the addition of parking spaces. While the zoning allows for an area of 91,998 sq ft, the 1996 project approval and CDP provide for a maximum of 85,000 sq ft. The facility was eventually built out to a little under 80,000 sq ft, though parking was included for the full 85,000 sq ft. Extra Space now proposes adding area that will reach the maximum allowed by right. Parking spaces will be added as required by the VCZSP. Because the area will exceed that allowed under the CDP, the CDP must be amended. No further action will be required as the facility will remain in compliance with all of the other conditions set forth in the CDP and project plans.
